Pupils at The Ilfracombe Academy experience a range of Careers and Work Related Learning activities. Key events in KS4 form a big part of that experience such as You're Hired and Next Steps day. These events have been running for over ten years and are a brilliant opportunity to engage with local employers and providers. During PCRE lessons in KS3, pupils take part in a series of taught lessons covering employability skills enabling pupils to reflect on their own destination plans. Tutorial time also provides pupils with knowledge on career pathways, apprenticeships and support with the Work Experience Programme.

Our Careers Programme follows the Career Development Institutes (CDI) framework. This has three key elements:

- Developing yourself through careers, employability and enterprise education.
- Learning about careers and the world of work.
- Developing your career management and employability skills.

This document outlines our core offer for Careers and the annual planned activities that take place. There are lots of additional opportunities that come up throughout the year.

Careers and Work-Related Learning Programme

Year 7

- Careers Morning with Pall and Atlas Packaging.
- ‘This is Me’ sessions during PCRE lessons:
